

KaWaBiz NET and JS co-hosted the "Canada Business Seminar"

On Friday, April 12, 2024, the Kawasaki Water Business Network (KaWaBiz NET) and Japan Sewage Works Agency (JS) jointly hosted the "Canada Business Seminar". During the seminar, we had invited officials from the University of Calgary, Canada, give a lecture on the water situation in Canada and research being conducted at the University of Calgary. Additionally, local corporations in Canada introduced their business to KaWaBiz NET members and companies with relations to JS.

As a functional platform for connecting the public and private sectors, KaWaBiz NET will continue to support our members' water business by providing helpful information through seminars like this one.
